Profile

Associate Software Engineer specializing in full-stack web development with experience in React, TypeScript, Redux Toolkit, NestJS, Prisma, and PostgreSQL. Experienced in developing scalable web features, RESTful APIs, responsive interfaces, and enterprise application solutions within Agile Scrum environments. Passionate about writing clean, maintainable code and continuously improving technical skills.

Professional Experience

Associate Software Engineer, *(GIMME MARKETPLACE LTD)* *09/09/2026 - present*

- Full-stack developer.
- Developed and maintained full-stack application features using **React, Redux, TanStack Query, Node.js and PostgreSQL**.
- Built reusable and responsive UI components using **React** and **Chakra UI**, improving development efficiency and consistency.
- Collaborated with the team in **Agile/Scrum** environments to deliver new features and product enhancements.
- Investigated and resolved software defects, contributing to improved application stability and user experience.

Associate Software Engineer, *(IQZ Systems)* *20/08/2024 - 28/02/2026*

- Full-stack developer.
- Developed and maintained full-stack application features using **React, Redux, NestJS, and PostgreSQL**.
- Designed and implemented **RESTful APIs** to support frontend integrations and business workflows.
- Built reusable and responsive UI components using **React** and **Tailwind CSS**, improving development efficiency and consistency.
- Collaborated with cross-functional teams in **Agile Scrum** environments to deliver product enhancements and new features.
- Investigated and resolved software defects, contributing to improved application stability and user experience.
- Participated in code reviews, sprint planning, and technical discussions to maintain code quality and project standards.

Software Engineer Intern, *(NutriTech Analytics Group - Research Laboratory, UCSC)* *05/12/2023 - 04/06/2024*

- Contributed throughout the software development lifecycle, including requirement analysis, application design, feature development, and testing.
- Collaborated with stakeholders and clients to understand business requirements and deliver software solutions.
- Developed web application features using the MERN stack.

Education

- **Bachelor of Science (BSc) in Computer Science** *University of Colombo* *2021-2024*
- **Diploma in Comprehensive Master Java Developer** *IJSE - Institute of Software Engineering*
- **School Education** *Southlands College, Galle, Sri Lanka* *2010-2018*

Skills

- **Programming Languages:** JavaScript, TypeScript, Java, Python, C, C++
- **Frontend Development:** React, Next.js, Redux, TanStack Query, Tailwind CSS, Chakra UI, SCSS, HTML
- **Backend Development:** Node.js, NestJS, REST API Development, Prisma ORM
- **Databases:** PostgreSQL, MySQL, MongoDB, Firebase
- **Tools and Platforms:** Git, GitHub, Azure, Docker, n8n, Visual Studio Code, Swagger (OpenAPI), Apidog

- **Software Engineering Practices:** Agile Scrum, Unit Testing, API Integration, Responsive Web Design, Version Control
- **Other Skills:** Search Engine Optimization Basics(SEO)
- **Soft Skills:** Communication, Teamwork, Analytical Thinking, Creative Problem-Solving, Adaptability, Continuous Learning, Problem solving

Projects worked on

- **Gimme** – A UK marketplace for buying and selling golf equipment.
  - **Role:** Full Stack Developer
  - **Technologies:** React, Chakra UI, Redux, Node.js, PostgreSQL
  - **Key Contributions:**
    · Collaborate to build order management features.
    · Resolved defects and enhanced existing features to improve overall system reliability.
- **IQZ Connect** – An internal social media platform for employees of IQZ Systems.
  - **Role:** Frontend Developer
  - **Technologies:** React, Tailwind CSS
  - **Key Contributions:**
    · Developed the User Profile section.
    · Implemented post creation, display, and interaction functionality.
    · Improved existing frontend modules through bug fixes and usability enhancements.
    · Collaborated with backend developers to integrate frontend features with APIs.
